SUMMARY

Implementation Analyst with 3 years of experience in software implementation, system configuration and deployment automation. Hands-on expertise in C#, SQL, Python, and Azure DevOps with a proven track record of optimizing workflows and improving reporting efficiency. Strong collaborator with cross-functional teams to deliver scalable, client-focused digital solutions that enhance operational performance. Hands-on expertise across SDLC, UAT and production environments for global clients.

TECHNICAL SKILLS

Implementation & Deployment: SDLC Management, System Configuration, Azure DevOps, GitHub.

Core Technologies: C#, SQL, Python, REST APIs.

Data & Reporting: SQL Data Validation, Excel Reporting, Root Cause Analysis.

EXPERIENCE

Implementation Analyst – TELUS Digital Solutions | 2023 – Present

- Developed and deployed C# logic to deliver customized client requirements, engineering robust data extraction, cleaning, validation, and transformation processes.
- Automated template generation by utilizing SQL and XML datasets, analyzing structured business data to support operational needs and improving overall data accuracy by 25%.
- Built automated Power BI dashboards and Excel reports, reducing manual reporting effort by 40%.
- Collaborated with 5+ cross-functional stakeholders across US and Canada to deliver Quantified business insights.
- Conducted analysis on data discrepancies, reducing data discrepancies by 16%.
- Executed UAT for 5+ releases, reducing post-release issues by 12% using Azure DevOps, ensuring data consistency post-release.

PROJECTS

Automated Query Resolution System

- Developed an NLP-based conversational assistant handling 100+ concurrent queries with <2s latency.
- Designed REST APIs (5+ endpoints) using Flask to support production-ready backend integration.
- Processed 1M+ rows of operational data across 3+ reports, Handled voice queries with <2s response latency

Operational Performance Dashboard

- Designed Role-based Power BI dashboards to monitor KPIs and business performance metrics.
- Processed and cleaned large datasets using Pandas and NumPy.
- Generated insights that influenced weekly business reviews and operational planning.

EDUCATION

Graphic Era University, Dehradun | 2024-26

- Master of Computer Applications

United Institute of Management, Prayagraj | 2020-23

- Bachelor of Computer Applications
